

General Photo Tips

- * Bring a few outfit choices that are fun, but are simple with minimal designs.
- * Clothing choices should be timeless in style. Note: trendy clothing is fine, but the outfit should not take the focus off the child.
- * Please keep the clothing in the same tonal family. Wear dark with dark and light with light.
- * Make sure clothing does not have logos or pictures.
- * If you are having children photographed together, their outfits should be coordinated by color palette but do not need to match.
- * Bring accessories such as cute hats and tights for girls.
- * Bring a favorite stuffed animal, blankets or other items that are special to you and your child.
- * For girls with long hair, please have your children arrive with their hair down. We will decide together the best hairstyle for the camera. (Feel free to bring hair clips, headbands, a brush, etc).
