

# Pet Photo Tips

- \* Consider having your pet groomed the day before your photo session. Same day grooming and photo session is often too overwhelming.
- \* Exercise your pet for about 20 minutes prior to your appointment.
- \* Bring treats, toys, clothes and other special items.
- \* Feed your pet a light breakfast, so she/he arrives hungry and treats are “effective.”
- \* To prevent “wet whiskers,” do not let your pet to drink a lot prior to the appointment.
- \* Part of the session will include, “get acquainted” time. Photos will follow immediately.
- \* Sessions run about 1 hour.
